EDUCATION

● Motilal Nehru National Institute of Technology Allahabad	2021-2025
Computer Science and Engineering	CPI: 7.1
● St. Teresa International Academy School (CBSE)	2018-2020
Board of Intermediate Education, Bihar	Percentage: 93%
● St. Xavier's High School (ICSE)	2008-2018
Board of Secondary Education, Bihar	Percentage: 92.4%

EXPERIENCE

● Amazon Software Engineering Internship	Jan - June 2025
Offer Browser Report Link	
- Developed scalable RESTful APIs for sales restrictions, reducing manual overhead by 40%. - Built backend services using Java, DynamoDB, and Amazon frameworks to improve processing speed and responsiveness. - Achieved 95% test coverage by implementing 100+ unit and integration tests, reducing regression issues by 30%. - Deployed and validated services via CI/CD pipelines across AWS Availability Zones, ensuring high availability and production readiness. - Built dynamic front-end components with React.js and Redux, improving user experience and enabling seamless API integration.	
● Restriction LLM Validator Report Link	
- Built a multi-agent AI system using Amazon Bedrock to automate global sales restriction validation. - Deployed AI agents with confidence scoring to generate compliance reports, improving validation by 30%. - Automated real-time workflows using AWS Lambda, reducing manual effort by 40%. - Optimized data storage with Amazon DynamoDB for fast querying and audit readiness. - Enhanced compliance precision via Bedrock action groups and real-time restriction context.	

PROJECTS

● Task Offloading in Mobile Edge Computing Environment Github Link	February, 2024
Tools & technologies used: Java, Eclipse, EdgeCloudSim, Deeplearning4j - Developed a multiobjective optimization approach to balance bandwidth and reliability in IoT applications. - Used Q-learning, Double-DQN, and DDPG to transform the problem into a single-objective optimization for near-optimal solutions. - Achieved significant improvements in reliability and bandwidth efficiency through simulation experiments.	

TECHNICAL SKILLS AND INTERESTS

Languages: C++, C, Java, Python, JavaScript, TypeScript
Developer Tools: Visual Studio Code, IntelliJ IDEA, Git and Github, Linux/Unix(CLI)
Frameworks: ReactJs, NodeJs, Redux, JUnit, REST APIs, Spring Boot, Microservices
Cloud/Databases: MySql, MongoDB, DynamoDB, AWS
AI/ML Tools: LLM Integration, Prompt Engineering, Confidence Scoring, Bedrock Action Groups
Soft Skills: Problem Solving, Strong Debugging, Adaptability, Team Collaboration, Leadership, Strong Communication Skills
Domain Knowledge: Database Management System, Operating System, Computer Networks, Object Oriented Programming, Low Level design, System Design, Distributed Systems
Areas of Interest : Data Structure and Algorithms, Web Development, Cloud Computing, Machine Learning, App Development

CODING PROFILE

●Leetcode: Solved 500+ questions	MansiAmaira
●Codeforces: Solved 100+ question	codeshutter

ACHIEVEMENTS

● Finalist in Tech Maiden: Annual college competitive coding contest held for female students	March, 2024
● Finalist in Webster: Web Development competition for students	April, 2023
● Hackathon: Participated in Hack36 (an event held under CC club, MNNIT)	February, 2024
● Hacktoberfest: Contributed to open-source projects during Hacktoberfest event	October, 2023
● Qualified PRMO: Pre-Regional Mathematical Olympiad	September, 2017
● Best Sportsperson in School : Won Promising Sportsperson of School award in girls category	January, 2018

POSITION OF RESPONSIBILITY

●Member in Chess Club : Helped organizing intra-college tournament	2022-2025
●Member in Coding Club MNNIT: Participated in club coding contests and mentorship sessions	2023-2025
